FENOHAJA HYSMAEL FANOMEZANTSOA

Digital Solutions Designer & Project Coordinator

Web applications • Automation • Organizational management

PROFESSIONAL SUMMARY

Second-year Master's student in Management, specializing in Organizational Management, and self-taught digital solutions designer. Combines organizational management, project coordination, web application development and automation. Has designed and delivered several functional solutions from concept to deployment, including a macroeconomic terminal, a trading journal and a business website. Experience also includes staff coordination, quality control, sales follow-up, customer relations, logistics and entrepreneurship. Uses artificial intelligence as an assistance tool throughout design, integration, testing, deployment and continuous improvement.

DIGITAL PROJECTS

Macroeconomic Analysis Terminal

Web application

- Analyzed requirements and structured the application features.
- Designed the interface and user journey.
- Integrated economic data and APIs.
- Created dashboards and data consultation tools.
- Tested, debugged, deployed and continuously improved the application.

Trading Journal

Business application

- Designed trade recording, monitoring and analysis features.
- Structured and processed trading data.
- Created performance indicators and dashboards.
- Tested, debugged, deployed and enhanced the application.

Business Website

Professional website

- Defined the website structure and organized the content.
- Designed and developed a responsive user interface.
- Presented services and structured the user journey.
- Configured, deployed, maintained and improved the website.

Automation Solutions

Workflows and integrations

- Analyzed processes and identified automation opportunities.
- Designed multi-step workflows with conditions and business rules.
- Connected services through APIs and webhooks.
- Automated data collection, processing and transfer.
- Tested scenarios, handled errors and continuously improved workflows.

PROFESSIONAL EXPERIENCE

Management and Operations Assistant

Entreprise TIANA

2018–2024

- Coordinated the daily activities of sawmill staff.
- Checked the quality and conformity of processed wood products.
- Reported non-conformities and followed up on corrective actions.
- Received and forwarded customer orders.
- Organized and monitored local and regional deliveries.
- Checked products during loading and unloading.
- Collected customer payments and transferred funds to management.
- Supported commercial and logistics operations.

ENTREPRENEURIAL EXPERIENCE

Independent Commercial Activities

Self-employed

2020–2024

- Purchased and resold mobile phones through Facebook.
- Published products and handled customer communications.
- Negotiated sales and organized deliveries.
- Organized the cutting, transportation and sale of timber.
- Created and managed an Internet connection resale activity for eight months.
